Consonant Clusters

The language does not allow consonant clusters. Due to this, only two consonants can appear beside each other. The third consonant will be changed depending entirely on the word.

Pluralization

No fixed plural marker in the language. Each word has its own plural marker.

1. Book: nawm
Books: yanawm
2. Weekend: ushlyfa
Weekends: enushlyfa
3. Movie: kyim
Movies: kenkyim
4. Grandparent: oshlank
Grandparents: baboshlank
5. School: xola
Schools: conxola
6. Museum: tyozyum
Museums: rhatyozyum

7. Bus: tawa
Busses: mitawa

Negation

It is a circumfix ni-x. The nix only holds if there is a vowel before it. If there is a consonant before the ‘-x’, it changes to ‘-i’ due to the rule not allowing consonant clusters.

Grammar Rules

1. Consonant Clusters

The language does not allow more than two consonants beside each other. Three consonants continuously is not acceptable and causes the succeeding sound to change. In cases of infixes, the letters within the infix change to suit the word.

For example,

The verb '**krok**' for read. While all verbs use markers */-ra-/*, */-ne-/*, */-ka-/*, */-wa-/* but **krok** uses */-ar-/*, */-en-/*, */-ak-/*, */-aw-/* instead.

2. Pluralization

No fixed plural marker in the language. Each word has its own plural marker.

For example,

Book

Sg: *nawm*

Pl: *ya-nawm*

The plural marker for '*nawm*' is */ya-/*.

Movie

Sg: *kyim*

Pl: *ken-kyim*

The plural marker for '*kyim*' is */ken-/*

3. Negation

The marker for negation is */ni-x/* which is a circumfix. It occurs around verbs to show negation. However */ni-x/* only appears when there is a vowel in front of it. If there is a consonant before the **/-x/* it changes to **/-i/* due to the rule not allowing consonant clusters

For example, in the lines

1. “I don’t like schools”

“*Dawnifarahliconxola*”

The verb is *farahl*. And surrounding it is the /**ni-i**/ form.

2. “I don’t like going out”

“*Dawnigawankaxber*”

The verb is *gawanka*. And surrounding it is the /**ni-x**/ form.

4. Verb Conjugation

Verbs are used with infixes to relay time information with the use of tense. There are only four understood tenses- Present, past, future and present continuous. Infixes are inserted in the middle of the word after the first syllable.

Present tense: /-**ra**-/

Past tense: /-**ne**-/

Future tense: /-**ka**-/

Present continuous tense: /-**wa**-/

For example,

Walk

Base form: *joka*

Present: *jo-ra-ka*

Past: *jo-ne-ka*

Future: *jo-ka-ka*

Present Cont: *jo-wa-ka*

Visit

Base form: *makr*

Present: *ma-ra-kr*

Past: *ma-ne-kr*

Future: *ma-ka-kr*

Present Cont: *ma-wa-kr*
